

Careers in the Railroad Industry (Paperback)

Filesize: 2.36 MB

Reviews

Undoubtedly, this is the best function by any writer. This really is for those who statte there was not a really worth reading. Its been written in an exceptionally basic way which is merely right after i finished reading through this book by which really transformed me, change the way i really believe.

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.THE TIME TO CHOOSE A CAREER IS AN exciting time. Your career will define many parts of your life for years to come. You owe it to yourself to give this decision the attention it deserves. Some careers are essential. They may not be glamorous or lead to fame and fortune, but the world would not be able to get along without them. Railroading is one of those careers. When many people think of railroading they think of old-fashioned steam locomotives, streamlined passenger trains from times gone by or maybe pages from a school history book. Railroads have played a role in the development of the United States, and are part of our common heritage and lore. They are not as visible as they used to be, with most long-distance passenger travel shifting to airplanes decades ago, and trucks handling a large proportion of cross-country hauling. The truth is railroads are as important as they ever were. Railroads are the least-expensive way to haul heavy loads over long distances on land. Trains use thousands of miles of dedicated right-of-way to travel long distances around the clock using only a handful of operators. In a typical day American railroads deliver more than five million tons of consumer and industrial goods to cities across the country, and play a vital role in the container shipping system that moves goods around the world. Railroads deliver about 70 percent of all the coal used in the United States. Looked at another way, railroads provide nearly 40 percent of the electricity used in the United States by carrying the coal necessary to generate it. It would be hard to name another industry more essential to...
