LAP Lambert Academic Publishing. Paperback. Condition: New. 84 pages. Dimensions: 8.7in. x 5.9in. x 0.2in. E-services is a suite of web-based products brings profound changes in business models and value chains especially for Professional and Continuing Education Centre (PACE) environment due to its responsibility to manage all courses provided by every faculty to private colleges. PACE is currently running resourcefully but it is facing a few problems such as the difficulties of each faculty officer to get information about private colleges, and a lack of information management in private colleges itself. Therefore, the objective of this book is to propose a model of e-service application called E-Supervised (E-SUV) to provide the information related to twinning programmed between Universiti Utara Malaysia (UUM) and private colleges. This book explained in details the model of web based system that can be used by many of colleges throughout the world. In a nutshell, UML- based Web Engineering (UWE) approach is a viable option to facilitate e-services in education environment and thus could serve as a guideline model of future e-distance learning centre.
