REDMOND

1st Book Library. Paperback. Book Condition: New. Paperback. 316 pages. Dimensions: 9.0in. x 6.0in. x 0.7in. What would it be like to wake up one day and find that we are not who we thought we were? An impressive blend of fiction, medical breakthroughs, and credible action-packed scenarios make Norman Bernauer's novel *Redmond* a novel to read. With amnesia as the focal point of conflict, Bernauer grants readers access to this enigmatic illness and portrays how it drastically changed the life of the story's main protagonist. *Redmond* is a riveting story of a brain transplant operation that is meant only as an experiment. It is not expected to succeed. Fortunately or unfortunately, it does. A brain transplant is performed in an attempt to save the life of one of the victims of a devastating head-on collision of two cars. As a result of the operation, the principal character in *Redmond* is left with a total loss of memory. Aside from not recognizing his own face, he suddenly possesses knowledge and abilities that he supposedly shouldn't have. After a series of bizarre coincidences, he regains complete recall and finds out that he is not who his family and fiancée believe him to be. Apart from having the dilemma of trying to prove who he really is, he discovers that he is not really a victim of a terrible accident, but an object of a murder attempt. Now he realizes that someone is trying hard to kill him - again! Bernauer skillfully combines realistic scientific advances with imaginative circumstances. With fast-action drama, witty dialogue, and a terrific plot, *Redmond* is undoubtedly a winner. About the Author Norman Bernauer holds a BA degree in Speech with emphasis on Radio from the University of Wisconsin. He continued his education at the School of Radio...
