

## Report on the Pfalz Biplane, Type D.XV., February 1920reports on German Aircraft 19 (Paperback)

By -

Naval Military Press, 2014. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. The D.XV was last of the series of biplane fighters and notably different from their earlier aircraft, with both mainplanes clear of the fuselage and without flying wires. The lower wing was the smaller of the two both in span and chord and had elliptical tips. The upper wing was square tipped and fitted with ailerons. Both were single piece from tip to tip. Outward leaning N-form struts defined the D.XV as a single bay biplane; groups of short struts from the mid and upper fuselage joined it to the upper wing and similar groups attached the lower plane. The D.XV had a 185 hp (138 kW) 6-cylinder water-cooled inline engine BMW IIIa with a rectangular radiator filling the upper nose above the drive-shaft of the two blade propeller. Aft, the fuselage was rounded in cross-section with the single open cockpit behind the upper wing's trailing edge. The horizontal tail was mounted at mid-fuselage, D-shaped in plan and with balanced elevators. The fin was triangular and carried a short, curved, balanced rudder. The D.XV's fixed conventional undercarriage was of the fixed...

### Reviews

*Thorough manual! Its this sort of good read through. it absolutely was writtern very flawlessly and helpful. I am just easily will get a delight of studying a created publication.*

-- **Abdiel Stiedemann Sr.**

*This kind of pdf is every little thing and taught me to looking forward and more. It is one of the most incredible book i have read. You wont truly feel monotony at whenever you want of your time (that's what catalogs are for about should you check with me).*
