Book Condition: New. Publisher/Verlag: Springer, Wien | Proceedings of the Eurographics Workshop in Stuttgart, Germany, June 16-18, 1998 | Ten years after Virtual Environment research started with NASA's VIEW project, these techniques are now exploited in industry to speed up product development cycles, to ensure higher product quality, and to encourage early training on and for new products. Especially the automotive industry, but also the oil and gas industry are driving the use of these techniques in their works. The papers in this volume reflect all the different tracks of the workshop: reviewed technical papers as research contributions, summaries on panels of VE applications in the automotive, the medical, the telecommunication and the geoscience field, a panel discussing VEs as the future workspace, invited papers from experts reporting from VEs for entertainment industry, for media arts, for supercomputing and productivity enhancement. Short industrial case studies, reporting very briefly from ongoing industrial activities complete this state of the art snapshot. | Keynote Papers.- Advances in Bridging the Gap: Using Virtual Reality to Enhance Productivity.- New Trends in Virtual Environment User Interface Research: Case Studies at the Human Interface Technology Laboratory.- Teraflop Visualization.- Virtual Reality in Medicine: Developing the Visualization and Interaction Technology for the 21st Century.- Making Virtual Worlds Work in a Real World.- Technical Papers.- Experiences from an Inhabited Television Experiment.- Grounding & Awareness Management: Two Architectural Principles for Collaborative Virtual Worlds.- Remote Object Translation Methods for Immersive Virtual Environments.- Meet.Me@Cyberstage: Towards Immersive Telepresence.- VR Geo - Planning Tool for the Redevelopment of Landscape.- Design of a Virtual Environment that Employs Attention-Driven Interaction and Prioritization.- Navigation in Real and Virtual Environments: Judging Orientation and Distance in a Large-Scale Landscape.- Analyzing Draft Tube Characteristics for Hydraulic Turbines in a VR Environment.- Collaborative Volume Rendering in a Distributed Virtual Reality Environment.- Sharing Virtual...
