

Theory of Technology

By -

Transaction Publishers. Paperback. Condition: New. 159 pages. Dimensions: 9.0in. x 6.0in. x 0.5in.The history of technology is often troubled by good ideas that do not, for one reason or another, take off right away--sometimes for millennia. Sometimes, technology comes to a standstill, and sometimes, it even reverses itself. Thus, unlike science, which seems to proceed at a reasonable and calm rate, the progress of technology is difficult to theorize about. While in science many developments are predictable to a certain extent and this predictability may, at times, direct or stymie sciences progress--as with stem-cell research and cloning--technological advances, such as the Internet, are often sudden and unpredictable, and therefore frightening. In Theory of Technology, David Clarke brings together nine authors who try to understand technology from a variety of viewpoints. Rias van Wyk, in Technology, parses the concept into many angles, including its anatomy, taxonomy, and evolution. Karol Pelc, in Knowledge Mapping, discusses tracking the evolution of the emerging discipline of technology management. Jon Beard, in Management of Technology, pursues a similar mapping endeavor, but looks to the patterns of the literature of technology management. Thomas Clarke, in Unique Features of an R and D Work Environment and Research Scientists...

Reviews

This is actually the very best book i actually have read till now. This is for all those who statte that there was not a worth studying. Its been written in an remarkably straightforward way which is merely following i finished reading this publication by which in fact altered me, modify the way i believe. -- Mr. Jeramy Leuschke IV

An extremely great ebook with perfect and lucid answers. This is certainly for anyone who statte that there was not a well worth looking at. Its been designed in an exceptionally simple way and is particularly only soon after i finished reading through this ebook in which actually transformed me, modify the way in my opinion. -- Libbie Farrell
