INCENTIVE PAY FOR REMOTELY PILOTED AIRCRAFT CAREER FIELDS (PAPERBACK)

RAND Corporation, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book. An econometric assessment of the effectiveness of incentive pays in retaining remotely piloted aircraft pilots and sensor operators. Civilian pilot and sensor operator salaries are higher than those of other officers or enlisted personnel, indicating that incentive pays should be continued, along with reenlistment bonuses, because failure to retain enough personnel would cause serious problems with filling critical positions.

Reviews

This is an awesome publication i have at any time read. Of course, it is play, still an interesting and amazing literature. You will like just how the author write this book.

-- **Prof. Herta Mann**

It is really an remarkable ebook that I actually have ever study. It is actually loaded with knowledge and wisdom You will not truly feel monotony at whenever you want of your time (that's what catalogs are for about in the event you check with me).

-- **Mr. Norval Reilly V**

This is an amazing publication i actually have at any time go through. It is actually rally interesting through reading through period. Its been developed in an exceptionally straightforward way which is merely following i finished reading through this publication where actually altered me, modify the way in my opinion.
