Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.For Medical doctors and health professionals only. Using old-fashioned analytical comparisons of symptom similarities and differences -- as opposed to the alleged gold standard of double-blind studies -- Roger Wyburn-Mason, M.D., Ph.D. deduces that the more than 100 forms of collagen tissue diseases such as Rheumatoid Arthritis are related and that such diseases are actually systemic in nature. With a world-renown amoebologist the two believe they ve isolated out a single cause of these diseases. While this belief is probably inaccurate, Wyburn-Mason as far back as the 1950s began trying out a series of drugs that was able to halt the progress of rheumatoid diseases including rheumatoid arthritis. The one chapter in this book which is probably defective is their method of presumably isolating out this single cause. Otherwise, for any trained medical professional that follows Wyburn-Mason s reasoning they will find it superb. He finally settled on any one of the 5-nitroimidazoles, sometimes jointly with other easy to obtain drugs and sometimes by themselves. This treatment has since become one of the recommended treatments together with other...
