Most of my working life was spent as an economist and civil servant in the field of water management. When, on retirement, I was freed from dealing with work-a-day problems, I set off on a private search for a rather broader perspective on the human experience and quite naturally started out from the familiar. I have wandered far and wide on a meandering journey, like that of water itself. I have explored the interface between humankind and this deceptively bland, colorless, tasteless and odorless substance. I have delved into creation myths; looked at the emergence of civilizations and their decay; pondered the place of water in the human psyche, as expressed in art and poetry and folklore; considered its role as a factor of production, a source of energy, a conduit of transportation and a consumer good. In passing, my attention has been caught by wishing wells and water closets, changing concepts of physical and spiritual cleanliness, and a miscellany of comic and curious trivia. And I have turned to the natural sciences in search of answers to the question why this one simple substance should have such an all-pervading influence on our lives. The book has no pretensions to being an academic work. Lacking the tools to deal more than superficially with most of the subjects touched upon, I turned to the insights and scholarship of others for help. This will be abundantly clear to anyone glancing at the quotations that grace the text, or browsing through the bibliography and endnotes. I have done my best fully to acknowledge my indebtedness to others and...
