

Macbook Pro: For Seniors (Paperback)

By Matthew Hollinder

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The MacBook Pro is one of the releases of the Apple computer line that was initially introduced to the market as far back as January 2006. It is a powerful computer unit that allows users to be able do whatever they need in an easy and efficient way. Senior citizens are defined as people who are over the age of 55 years old and may not be particularly technologically inclined. They may have challenges in using computers but with the latest Apple technology, they have made it somewhat easier for them to understand new concepts. One of the main aims of Apple is to make their devices more user friendly and allow persons to easily achieve what they want to do. There should be no bells and whistles in getting their activities done. They aim to be the leader in computing and with their innovative devices they are certainly getting there. Related specifically to the MacBook Pro, it has many features that give seniors a comfortable experience in using computers.

Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
