It is one of my personal favorite pdfs. This really is for all those who state there was not a really worth looking at. I realized this book from my dad and I encouraged this pdf to understand.

The author of The British Miscellany considers himself as the first who has undertaken to collect for publication, merely the new and rare productions of Great Britain; and he has great pleasure in finding his exertions repaid by the stimulus they have given to the followers of Nature in every department. Objects which in former ages were passed over as too minute or too insignificant for observation, are generally found to repay the investigator of them either by their beauty or utility. The present enlightened age seems very desirous of elucidating the obscurities of former times; since it is become very evident, that the least as well as the largest work of nature is equally the production of an all-wise Creator.
