RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 38 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1828 Excerpt: . . . Yorkshire, one taken on the wing in August 1825. The late Mr. Francillon assured me that his specimens were bred by himself. I obtained two from Mr. Plasteads collection, and Mr. Dale purchased one in the highest state of preservation, taken by Mr. Standish the 7th of last September, resting upon paling near Birch Wood, Kent. 2. Elocata Esp. , Nob. The only specimen of this Moth that has come under my observation, I purchased in the late Mr. Blunts cabinet: it had evidently been taken by some one who did not understand setting Lepidoptera, pins having been passed through the upper wings to keep them spread open. It is much larger and darker than C. nupta; the superior wings have an olive cast; the red in the under wings is duller: the black band is more regular in its form, and continued to the abdominal...
