VOUGHT F4U CORSAIR VOL. II

Kagero Oficyna Wydawnicza. Paperback. Book Condition: new. BRAND NEW, Vought F4u Corsair Vol. II, Leszek A. Wieliczko, Tomasz Szlagor, The second volume carries on the story of the F4U Corsair by examining its development and operational service in later stages of the World War Two. By early 1944 the Corsair well proved its worth in combat. Finally qualified for carrier operations, it began to challenge the Hellcat's status of the US Navy's primary fighter aircraft. The F4U-1D, capable of carrying nearly a ton of bombs and eight rocket missiles, excelled both in aerial combat and ground attacks. It's fighter-bomber capabilities were put to good use during the little-known campaigns in the Marshalls, Marianas and Palau Islands, as well as in the Philippines, which are related here in unparalleled detail. Much attention is dedicated to the initial deployment of the Corsair (both night and day fighters) aboard US Navy carriers, spanning the period between February 1944 and March 1945, which culminated in the first raids against Japan. Meanwhile, Vought and Goodyear engineers continued to improve and refine the Corsair. New, more powerful engines enabled them to develop two more versions before the war's end - the ultimate Corsair (Vought F4U-4) and the Super Corsair (Goodyear F2G-1/2). Their story is related in the opening chapter. A separate chapter is devoted to camouflage and markings of British and New Zealand's Corsairs, with a brief resume of the aircraft's service in the two air forces. The book is further supplemented by numerous data in tabular form, color profiles of five representative aircraft and 1/48 scale drawings of various versions. 112 pages 112 black and white photos 18 pages A4 sheet of scale drawings 5 painting schemes Format (sizes): (275x205 mm) Soft cover binding.
