Brand New Book. The history of the U.S. POW/MIA intelligence and wartime rescue operations has long remained concealed under the shroud of national security, unknown both to the public and to the families of the missing. George J. Veith has assembled an extensive range of previously unseen material, including recently declassified NSA intercepts, State Department cables, and wartime interrogation reports which reveal how the U.S. military conducted a centralized effort to identify, locate, and rescue its POW/MIAs. Code-Name Bright Light also traces the development of the various national POW intelligence operations and provides an in-depth look at the activities of the Joint Personnel Recovery Center, a secretive and highly classified unit in South Vietnam responsible for rescuing captives. Further, it uncovers one of the most tightly held POW/MIA secrets, the primary reason why the government did not think any Americans were left behind: a clandestine communication program between the POWs and the U.S. military. This still-sensitive program provided the identities and locations of American prisoners, defeating North Vietnamese efforts to keep...
