Brand New Book ***** Print on Demand *****.Excerpt from The Scottish Highlander Everything, wrote Macculloch, in his critical volumes on the Highlands, whisky, courage, ghosts, virtue or Beltain, is alike peculiar to the Highlands among those who know no country but the Highlands ; and the essayist who takes the Scottish Highlands as his subject must justify his choice by avoiding the ignorant flattery and weakly acquiescence which makes so much of the occasional literature on the subject worthless. Yet Macculloch himself found in the North material sufficient to fill four stout volumes; and the century which has intervened since he wrote has been rich in new collections of Highland folklore and ancient customs. And now there is a peculiar fitness in suggesting Highland life as a subject for careful study; for a century of depopulation has culminated in the melancholy figures of the latest census. A generation ago it was the decay of Highland manners which distressed the patriot; to-day it is the actual disappearance of the Highland stock from Scotland. A few years hence the historian of the North and West may take as his most appropriate motto: I come to bury Caesar, not to praise him. Without undue pessimism, it must be confessed that, in the Scottish Highlander, as the representative of a coherent people, dwelling in a fixed abode, we are dealing with a survival, the term of whose existence along the old lines cannot be prolonged far into the twentieth century. With relentless precision, modern civilisation has chosen other centres on which to mass her forces; and nothing marks the old positions now but ruined cots and the decay of ancient modes of life.
