Our enemies have openly declared that they are seeking weapons of mass destruction (Wmd), and evidence indicates that they are doing so with determination. . . . Terrorists are organized to penetrate open societies and to turn the power of modern technologies against us. Iran is the poster-child for the nexus of terrorism and Wmd. It is the worlds foremost state-sponsor of terrorism, as well as one of the countries most actively pursuing nuclear weapons. Washington is vigilant about Irans support for a network of Islamist terrorist organizations and persistent in pressing Iran to end its fi nancial, political, material, and operational support to them. At the same time, the United States has to come up with effective strategies to ensure that Iran does not acquire nuclear weapons. This item ships from multiple locations.
