### **Reviews**

*The best book i actually go through. It can be full of wisdom and knowledge Once you begin to read the book, it is extremely difficult to leave it before concluding.*

*(Prof. Greg Herzog)*

## DEFENSE TRANSPORTATION: COMMERCIAL PRACTICES OFFER IMPROVEMENT OPPORTUNITIES: NSIAD-94-26

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.GAO provided information on the Department of Defense s (DOD) efforts to improve its domestic motor freight transportation management practices, focusing on: (1) commercial-sector trends to reduce costs and increase efficiencies in transportation; (2) DOD efforts to improve transportation management; and (3) commercial practices that could result in more efficient and effective DOD transportation practices. GAO found that: (1) commercial shippers recognize that top management commitment and support is needed to implement transportation management improvement efforts; (2) commercial shippers have initiated actions to reduce costs and increase efficiency including integrating transportation functions within the logistics chain, reducing the number of carriers, focusing on high-performance carriers to promote stability and enhance leverage, utilizing information technology in their decisionmaking, and contracting for certain transportation functions to take advantage of lower costs and flexibility during market swings; (3) DOD ability to effectively manage its transportation operations is limited because of the large number of carriers it uses to move its freight, and redundancy and lack of standardization among its automated systems; (4) funding for the U.S. Transportation Command s oversight of transportation systems development has not been finalized; and (5) although DOD has made progress in reducing the number of carriers it uses and selecting high-quality carriers, it needs to implement strategies similar to those used by the private sector including comparing its transportation processes and costs with those of corporate shippers, promoting efficiency and reducing redundancies by standardizing its automated systems, streamlining transportation management and reducing costs, and enhancing information technology carrier management data collection.
