Labour Standards and the Wto: Counter-Hegemonic Struggle Against Neoliberalism?

By Claudia Laubstein

GRIN Verlag. Paperback. Condition: New. 52 pages. Dimensions: 8.1in. x 5.8in. x 0.2in. Seminar paper from the year 2004 in the subject Politics - International Politics - Topic: Globalization, Political Economics, grade: 1, 3 (A), Johannes Gutenberg University Mainz (Political Science), course: International Financial Institutions: Friend or Foe, 18 entries in the bibliography, language: English, abstract: This paper tries to determine causes for the only limited impact of labor movement. First, I will outline the neo-Gramscian approach to International Political Economy with its central concepts of hegemony and counter-hegemony. From a neo-Gramscian perspective, the labor movement is regarded as a counterhegemonic project which tries to change the hegemonic institution WTO to its advantage. I will show that the need for a social clause arose from tensions within the neoliberal order. In the analysis, the focus will be on the thesis that the labor movement itself is too divided and therefore does not represent a uniform strategy which would be necessary for the building of counter-hegemony. More particularly, a deep division runs between North and South. I will set up the thesis that the perception of an antagonism between Northern and Southern interests is further fueled by nationalist populist movements in developed...

Reviews

This created book is wonderful. It is amongst the most amazing book i have got go through. I am just effortlessly will get a enjoyment of looking at a created publication.

-- Prof. Jasper Murazik PhD

The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
