Katie Scott may look like a flower child, but under her bohemian exterior beats the heart of June Cleaver. Even though the Summer of Love and the behind-the-scenes disintegration of San Francisco's Haight-Ashbury left her disillusioned, she's still resolved to blend the counter-culture with an idyllic, traditional family life. Since it didn't happen in California, maybe she can find it in Swinging London. British guitar god Jay Carey has just walked away from his successful band, intent on forming a new group where he can finally play the kind of music he really wants. Falling in love isn't part of his plan, but he can't resist the electric attraction to the fresh, young American flower child when friends introduce them. When Katie moves in with him, it seems both of them finally have all they've dreamed of. But life with a rock n roll star doesn't lend itself well to white picket fences. The sex, drugs and rock n roll lifestyle that brought them together seems intent on tearing them apart. Can Katie and Jay keep their dreams and their love alive, or will the stresses and betrayals of the music scene be their undoing?.
