Facile Synthesis of Tubular  
Nanostructures and their  
Applications  
A New Approach

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | A New Approach | Tubular nanostructures are highly helpful in semi conductor industries as a replacement for the wiring and silicone chips that are being used today. They give the additional advantage of cheaper resource and easier manipulation of architecture when the right parameters are used during synthesis. Since sol-gel route is a highly reliable and cost effective method of synthesis, the products can also be scaled up easily. The TiO<sub>2</sub> nanotubes...
