## The Upright Thinkers

By Mlodinow, Leonard

Condition: New. Publisher/Verlag: Random House US | The Human Journey from Living in Trees to Understanding the Cosmos | From the bestselling author of *The Drunkard's Walk* and *Subliminal*, and coauthor of *The Grand Design* (with Stephen Hawking): an account of scientific discovery from the invention of stone tools to theories of quantum physics—a history at once inspiring and entertaining. | How did a near-extinct species, eking out a meager existence with stone axes, become the dominant power on earth, able to harness a knowledge of nature ranging from tiny atoms to the vast structures of the universe? Leonard Mlodinow takes us on an enthralling tour of the history of human progress, from our time on the African savannah through the invention of written language, all the way to modern quantum physics. Along the way, he explores the colorful personalities of the great philosophers, scientists, and thinkers, and traces the cultural conditions and the elements of chance that influenced scientific discovery. Deeply informed, accessible, and infused with the author's trademark humor and insight, *The Upright Thinkers* is a stunning tribute to humanity's intellectual curiosity and an important book for any reader with an interest in the scientific issues of our day. | Format:...
