## THE GENESIS OF LIFE (PAPERBACK)

Xulon Press, 2014. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This work is a serious challenge to atheists like Richard Dawkins who seek meaning without God. The universe and life have a story to tell, and this book makes that story accessible to the lay person. With fresh insight into the mystery of the origin of life, the essential point of the book is that all life is based on information. Just as a computer program infers the existence of a programmer, so the elegance and mind-boggling complexity of DNA, and the biochemical machinery it creates, point to a creative intelligence. Who is this creator? The book suggests he is the one known in the Bible as I AM who I AM. The author seeks to lead the reader, assisted by scientific evidence and a series of logical propositions, down a pathway to a deeper faith. How far that pathway is traveled is up to each reader to decide. . a thoughtful and refreshingly unbiased work which uses scientific principle to confirm faith-based explanation. . This really is the most welcoming, comprehensive and comprehensible book on the subject I ve ever read. Jack Walton, Editorial Consultant, Xulon Press.
