When you create a connection, it's an indicator that that prospect, or that customer, or that individual wants to continue the online relationship, which may lead to real business. Graduate from social media to business social media by creating value that others will perceive as important to fulfilling their needs. As you go through each aspect of this foundation-building, platform-building book, you will learn about the business social media tactics that author Jeffrey Gitomer and other experts are using right now. None of the ideas are random. All of them are fully tested and can be implemented by you, too. None of the ideas contain solicitation (buy my product, make a lot of money). All of them get you and your brand out there in a systematic way that will bring in dollars. Best of all, the strategies are presented in a way that will allow you to put them into practice immediately. 200 pp. Englisch.
