Reviews

This ebook might be worth a read, and superior to other. It is probably the most amazing publication we have read. Your lifestyle period will likely be transform once you total looking over this publication.

(Alana McCullough)

LANGUAGE (PAPERBACK)

Bloomsbury Publishing PLC, United Kingdom, 2005. Paperback. Condition: New. Annotated edition. Language: English . Brand New Book. An introduction to the philosophy of language for undergraduates *Key Concepts in Philosophy* is a series of concise, accessible and engaging introductions to the core ideas and subjects encountered in the study of philosophy. Specially written to meet the needs of students and those with an interest in, but little prior knowledge of, philosophy, these books open up fascinating, yet sometimes difficult ideas. The series builds to give a solid grounding in philosophy and each book is also ideal as a companion to further study. Inquiry into the nature and purpose of language has long been a central concern of Western philosophy, within both the analytic, Anglo-American tradition, and its Continental counterpart. *Language: Key Concepts in Philosophy* explains and explores the principal ideas, theories and debates in the philosophy of language, providing a clear and authoritative account of the discipline. The text covers the work on language of the major philosophers in both traditions, including Frege, Wittgenstein, Austin, Quine, Davidson, Heidegger, Gadamer, Derrida and Butler. The book equips readers with the requisite philosophical tools to get to grips with central concepts and key issues, and raises challenging questions students can then explore on their own. Coverage of each issue provides the reader with a full account of the state of the question and a thorough assessment of the arguments entailed in the available literature on that subject.
