## ADP EQUIPMENT: REVISED GSA STRATEGY FOR MICROCOMPUTER PURCHASES CAN IMPROVE COMPETITION: IMTEC-86-20

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Pursuant to a congressional request, GAO reviewed the federal government s use of Office of Technology Plus (OTP) computer stores to: (1) investigate the desirability and feasibility of using one or more service contracts to provide federal users with the same types of services OTP offers; and (2) determine whether government microcomputer efforts should be revised relative to the present OTP procurement strategy. GAO determined that: (1) it is not desirable to use service contracts to provide the same types of services that OTP offers because of the potential increase in administrative costs to the agencies; and (2) agencies have an incentive to use OTP even though other procurement sources could potentially meet their needs at a lower cost. GAO believes that the government s objective of satisfying its automatic data processing (ADP) requirements through full and open competition could be enhanced if it revises its strategy for procuring microcomputer products and services by: (1) creating a procurement method that would increase the ability of retailers to compete with OTP, which would increase competition on about \$22 million in microcomputer procurements; and (2) lowering the OTP maximum order limitation from \$100,000 to \$50,000, which would increase competition on about \$9 million in microcomputer procurements.
