Studienarbeit aus dem Jahr 2006 im Fachbereich Ingenieurwissenschaften - Wirtschaftsingenieurwesen, Note: 1, 3, Hochschule Bremen, Veranstaltung: Identifikationssysteme in Produktion und Logistik, ber Funoten Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Varying Forms of Violence in Revolutions from 1776 to 1990 The term revolution in its original meaning was a synonym for restoration of a political system which meant a return to some prior state of affairs. Only after the French Revolution did this definition change. Today we understand it as an overthrow and transformation of a political regime caused by popular rebellions or insurrections. This overthrow usually involves violent means. Some scientists even call a revolution the most consequential and (frequently) violent form of political conflict in history(1) and state that violence is an essential characteristic of revolutions. Most revolutions in fact were characterized by a large degree of violence among the government and oppositional groups. Violence in revolutions simply occurs because governments are usually not willing to transfer power to a new group of people. This of course creates tensions. Social movements, rebellions, riots, coups detat, and other political conflicts have often been closely connected with revolutions or...
