Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Nature of Being: An Essay in Ontology It is a commonplace that Ontology is discredited and that all attempts to pass beyond the confines of Knowledge in philosophic enquiry are suspect. To attempt here to justify so perilous a departure from metaphysical convention as to assume Being beyond Knowledge would be to write this book in the Introduction, a course which is not to be encouraged. In the First Part of this essay the method of metaphysical statement is discussed. Part Three is devoted to Being - the predication of the Data of possible knowledge, which Data are considered in the Second Part, while, in the Fourth Part, the conclusions which have been drawn from the earlier portions are summarized.
