Interweave, 2010. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Doubleweave is the art of weaving two layers of cloth at the same time, one above the other on the loom, creating beautiful cloth that is reversible yet unique on each side. Using pick-up techniques and clever color mixing, patterns emerge that are different but complementary on each side. The Weaver's Studio: Doubleweave begins with a brief history of doubleweave and how it has evolved into the contemporary weaving pieces seen today. Next, you will learn all the basics of doubleweave techniques, as well as tips and tricks of setting up the warp, and a variety of doubleweave specialty techniques all shown through detailed process photography and a wealth of swatches demonstrating different effects. Specialty techniques are shown for 4-shaft and 8-shaft looms. The weaving effects covered include lace, tubular weave, pick-up, color mixing, and more. And since doubleweave showcases color and pattern in unique ways, you will learn how to use these to great effect in your cloth designs. Throughout the book, you will find a wealth of inspiration with many examples of finished cloth and projects, from wall hangings and table runners to scarves and pillows.
