Reviews

This ebook will be worth acquiring. It is actually written in basic phrases instead of hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

Excerpt from Plans for Beautifying New York and for Enlarging and Improving the City of Boston: Being Studies to Illustrate the Science of City Building Sir, Your brief dismissal of my small offering to the city, last summer, was such as any stranger presuming to advise, might expect, in any country. But, having now resided here, upwards of twelve months, intrusion may be more warrantable. What moves me now to trouble you, is, seeing a new street in progress near Providence rail-road Depot (that looking into the Botanic Garden,) which might, I think, be greatly improved, by the introduction of sunk areas, in front of buildings. These were adopted in the capital of Scotland, seventy years ago, and, at first, only eight feet wide. Soon after, when the new town was planned, ten feet was thought better; and, twenty years ago, when the second new town arose, twelve feet was not deemed too much. There is a sunk area in front Of the Tremont House, and others throughout the city; but all are too narrow; and so it is in New York. Had Tremont House been set back twelve, instead of six feet, many advantages would have been gained. Not only would there have been abundant light and air to the basement, and c. , from an area of twelve feet, but the appearance of the whole would have been improved, particularly the portico which, instead Of being a daub, might have had its due proportions, - with elegance and comfort. In business streets, sunk areas may be objected to; but, in others of the first class, they should never be dispensed with. They admit of entrance to the first oor, either on...
