Reviews

These kinds of book is every thing and helped me hunting forward plus more. It is probably the most remarkable book we have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

WRITING PARAGRAPHS

Pearson Education (US), United States, 1996. Paperback. Book Condition: New. 3rd Revised edition. 232 x 175 mm. Language: English . Brand New Book. Writing Paragraphs is designed to assist students in mastering the elements of writing paragraph-length discourse. The book helps students develop skills in critical and analytical reading of paragraphs, which they in turn apply to their own writing. The commentary in the text is purposely kept brief, while principles are illustrated through abundant student examples. Students respond to these examples briefly and frequently in short practice sections throughout each chapter. Chapters 1-5 focus on the general skills necessary for writing - finding topics, shaping topic sentences, building support, and providing coherence. Chapters 6 through 9 introduce narrative, descriptive, expository, and persuasive writing and are designed to show students different possibilities for organizing their writing. Chapter 10 offers detailed checklists for revising and proofreading. Chapter 11 on writing multiparagraph units provides a bridge to more advanced writing courses.
