By Robert Johnson

Dangerous Little Books, United Kingdom, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.How do we formulate a coherent moral code in a world without religion? How can we show natural ideas like moral relativism and egoism to be irrational? Moreover, how can we create a genuinely scientific and rational theory of morality which, so far, has evaded academics? Rational Morality sets out to answer these questions by presenting a new form of ethics for the Brian Cox and Richard Dawkins generation. In this passionate, thought-provoking and often radical thesis, Robert Johnson presents both a refreshing theory of morality based on science and a guide to the practical consequences of what a truly rational concept of morality involves.

Reviews

Very good electronic book and valuable one. It is actually written in basic words instead of difficult to understand. I discovered this ebook from my i and dad encouraged this publication to discover.
