Institute of Economic Affairs, United Kingdom, 2016. Paperback. Condition: New. Language: English . Brand New Book. The authors of this book were asked to examine the issue of Britain leaving the EU and determine, from an economic or political economy point of view, what the appropriate role of international institutions should be in this debate. They were then asked to relate this to the reality that exists under the status quo or that might exist if Brexit occurred. In doing this, the volume can help achieve three objectives. First, it provides an analysis of the role that international institutions should play in the economic life of a free society. This is important, and rarely discussed in policy debates. In general, policy discussion tends to revolve around how to tweak the status quo - should we have more EU involvement in climate change policy or military intervention by the UN in this or that case, for example. Second, the authors implicitly lay out what a renegotiation agenda ought to look like if a country (whether Britain or not) wishes to reform the EU in a liberal direction, now or at some future time. At the time of writing this foreword, it is clear that David Cameron s agenda is not nearly radical enough, though it remains to be seen whether even that will be achieved. Indeed, it is not clear that the proposals of the UK government will even take the EU in the right direction. Any serious agenda to create a new settlement should start from first principles and take into consideration for what purposes the institution should exist. This would provide a benchmark against which success can be measured. Third, the authors provide a framework within which the practical options of remaining with a reformed EU and Brexit can...
