## SELF-FAB HOUSE

Actar D Okt 2014, 2014. Taschenbuch. Condition: Neu. Neuware - The Institute for Advanced Architecture of Catalonia investigates global projects for sustainable development on the cutting edge of self-sufficient housing, addressing environmental, economic and social needs. The projects investigate construction techniques and processes to build houses with local means, from the intelligent application of traditional techniques to advanced digital processes and fabrication. This book is a fascinating compilation of the most innovative projects for single dwellings and residential buildings, proposing the most creative designs and construction through the use of new materials and energy systems, and the integration of architecture into the landscape. Based in Barcelona, the IAAC is an international centre of architectural research in territorial analysis, urban development, digital fabrications and informational environments for improving cultural, economic and social conditions. 263 pp. Englisch.
