Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1880 Excerpt: .by the same generatrix and directrix; then, if the distances over which the generatrix has moved be equal in each, their areas will be as their mean ordinates; but if their mean ordinates are equal, then their areas are as the distances on the directrix over which these ordinates have moved: in general, their areas are as the product of their mean ordinates into the distances on the directrix over which they have respectively moved. In Fig. 30 let the length of the ordinate AE or BF be unity, while that of BG is n ; it is plain that when the generatrix h : is moved over a distance, AB or BC, equal to unity, then the area passed over by AE (the figure I) will be to that passed over by BG (the figure K) as n to 1. Also, that when the generatrix has moved over a distance CD or in. the area of the figure R will be to that of K as m to 1; hence the area of R is to that of I as m to 1. Moreover, if any other ordinate q of the same generatrix moves over the distance p of the directrix, the area generated will for the same reason be to I as p to 1, hence it will be to R as p to m . 119. Let two figures be described by different generatrices and directrices; then, if each be described by a unitordinate moving to...
