Exercises in Elementary Quantitative Chemical Analysis: For Students of Agriculture (Classic Reprint)

By Azariah Thomas Lincoln

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Exercises in Elementary Quantitative Chemical Analysis: For Students of Agriculture Owing to the growing demand for quantitative analytical chemistry by those engaged in the study of agriculture, it seemed to the authors that the presentation of the fundamental methods of agricultural analysis as carried out in the laboratories of the American Experiment Stations would be desirable. While this book is designed primarily as an elementary quantitative guide for the use of agricultural students, it may also be used for the work in general elementary quantitative analysis. This text-book is the outgrowth of several years experience in teaching quantitative analysis to students specializing in Agriculture, Chemistry, Medicine, and Household Science. No attempt has been made to present a complete treatise on quantitative analysis; but a few typical exercises have been chosen to illustrate the fundamental principles and the most important methods of manipulation. To further the interest in this work, the student should be encouraged to do considerable outside reading, and there should be available for his use a number of the best books of reference....

Reviews

This book might be worth a read, and superior to other. Of course, it really is engage in, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.
