RESEARCH ON ENERGY ISSUES IN CHINA

Hardback. Book Condition: New. Not Signed; China's rapid economic expansion raises questions internally and externally about how it will acquire the energy it needs to sustain growth. Currently, it is the largest producer and consumer of coal; how much will it continue to rely on its abundant natural resource in the face of increasing environmental concerns? Will it embrace new clean coal technologies developed by others or invest in its own? Currently it imports 50 per cent of the oil...
