Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Essentials of Human Physiology: For Medical Students Between the Physiology of Man and that of the Domestic Animals there is no fundamental difference, and most of our knowledge of human physiology has been acquired from experiments upon the lower animals. But while the tissues of a man, a dog, and a horse act much in the same manner, the mode of nutrition of these tissues is somewhat different, and requires special attention in the case of each. In this volume the attempt is made to give the essentials of general physiology and of the special physiology of the domestic animals in a form suitable to the requirements of Students and Practitioners of Veterinary Medicine. The book is not intended to take the place of the demonstrations and practical work from which alone physiology can be properly learned, but merely to supplement these and to focus the information derived from them. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
