Environmental Construction Handbook (Paperback)

By Mike Mcevoy, Anne Dye

RIBA Publishing, United Kingdom, 2008. Paperback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. Environmental Construction Handbook is an illustrated analysis of the various specific sustainability challenges presented by different building types. Based on rigorous research, it examines the consequences of contemporary construction methods and the ways in which their environmental impacts can be improved. A thought-provoking introductory chapter that makes sense of the plethora of benchmarks and environmental assessment methods serves as essential background reading, while the subsequent chapters, which concentrate on discrete building types, are designed to be dipped into as needed. The types considered - houses, housing, offices, schools, supermarkets, and factories - are all described using consistent, objective measures. The book is illustrated throughout with case studies contributed by some of the UK's leading exponents of environmentally conscious design, each accompanied by an ECOpoints summary to allow comparison. Comprehensive in its coverage, it makes extensive use of information panels that highlight particular issues, systems or technologies. Overall, Environmental Construction Handbook is an important, authoritative compendium designed to help architects and other building construction professionals to deliver...
