Historic determinism is a convenient way to tie up the uncomfortable loose ends in the tragic lives of millions and to explain, at the same time, the exceptional opportunities of many of the rest of us. A belief in an inevitable chain of events or the will of God, or destiny, or historic necessity suggests a formula to justify each situation as inevitable. Here history is seen like a single track, on which people ride in different cultural coaches in the same direction. Every stop, every departure is part of a natural schedule. Responsibility is not reduced by the belief in a necessary history or a willful God. Udo Middelmann presents an impressive and refreshing case for a view of human history that preserves the wonder of man as a true moral agent while affirming a biblical understanding of God as the providential One who works in...
