## LOCKPORT NY IMAGES OF AMERICA

Arcadia Publishing. Paperback. Condition: New. 128 pages. Dimensions: 8.6in. x 7.1in. x 0.4in. Lockport documents the creation and growth of a fascinating city that has played a vital role in American history. Here, the Erie Canal climbed the Niagara Falls escarpment and opened up the Great Lakes to East Coast commerce, a revolutionary achievement that brought unlimited hydroelectric power to western New York, fueling the early industrialization of Lockport. The city was at the forefront of technological and social innovation: the nations first commercial telegraph line was laid here; the fire hydrant, the district central heating system, and the honeycomb automobile radiator were invented here; the first New York public school system was developed here; the first automatic voting machines were used here; and the National American Music Festival was created here. Lockport salutes the heroes and characters of Lockports past and highlights the contribution of unsung generations of migrants-Irish, German, Polish and Italian-who built the Lock Citys industries, homes, and reputation. It echoes the hum of thriving Main Street stores, bustling Market Street businesses, grand Locust Street homes, and flourishing fruit belt farms. Most of all, it rings with the ceaseless opening and closing of the famous locks that gave the city its name. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
