I read - and write - health books and am especially a huge fan of greens, whole foods, raw foods, green juices and of course, green smoothies. This book is the best. It is visually gorgeous. It is written with the most friendly yet humbling and informative writing voice, it covers everything you may want to know about green smoothies as a beginner and also directs you to the right sections if you are in a hurry to get to the recipes. The author is NOT dogmatic - THANK YOU for sparing us that, Gabrielle - but she is thoroughly convincing and credible. I LOVE this book. Highly recommend it and of course, most of all, get your green smoothie on if you aren t already, book or no book! Got it?:) Good! By Farnoosh Brock (USA) Amazon Vine reviewer Gabrielle provides additional advice on how to make any smoothie tasty for children (and adults too!), tips about washing and storing greens, blending and which blender models and brands to look for that start...
