

Lets Review Biology, The Living Environment

By Gregory Scott Hunter

Barron's Educational Series. Paperback. Book Condition: New. Paperback. 464 pages. Dimensions: 8.9in. x 6.0in. x 1.0in. This updated biology review book covers all topics prescribed by the New York State Board of Regents and serves as a valuable companion to high school biology textbooks. Two comprehensive study units cover the following material--Unit One explains the process of scientific inquiry, including the understanding of natural phenomena and laboratory testing in biology. Unit Two focuses on specific biological concepts, including cell function and structure, the chemistry of living organisms, genetic continuity, the interdependence of living things, the human impact on ecosystems, and several other pertinent topics. Question sets are included in each section of the book and are accompanied by explanations of answers and wrong choices. Two recent Regents exams are also included with all questions answered. The book also features teachers guidelines for developing New York State standards-based learning units. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

This publication is worth getting. it absolutely was writtern very completely and useful. I am quickly could possibly get a pleasure of reading a written publication.

-- **Ariane Rau**

This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotonny at whenever you want of your own time (that's what catalogs are for relating to if you ask me).
