

Digitising the Industry: Internet of Things Connecting the Physical, Digital and Virtual Worlds (Hardback)

By -

River Publishers, Denmark, 2016. Hardback. Book Condition: New. 234 x 156 mm. Language: English . Brand New Book. This book provides an overview of the current Internet of Things (IoT) landscape, ranging from the research, innovation and development priorities to enabling technologies in a global context. A successful deployment of IoT technologies requires integration on all layers, be it cognitive and semantic aspects, middleware components, services, edge devices/machines and infrastructures. It is intended to be a standalone book in a series that covers the Internet of Things activities of the IERC Internet of Things European Research Cluster from research to technological innovation, validation and deployment. The book builds on the ideas put forward by the European Research Cluster and the IoT European Platform Initiative (IoT-EPI) and presents global views and state of the art results on the challenges facing the research, innovation, development and deployment of IoT in the next years. The IoT is bridging the physical world with virtual world and requires sound information processing capabilities for the digital shadows of these real things. The research and innovation in nan electronics, semiconductor, sensors/actuators, communication, analytics technologies, cyber- physical systems, software, swarm intelligent, and deep learning systems are essential for...
