MICROBIAL DECOLORIZATION AND DEGRADATION OF AZO DYES

Manjinder Singh
Microbial Decolorization and Degradation of Azo dyes
 An approach to Bioremediation of Textile and dye manufacturing industries wastewaters

LAP Lambert Acad. Publ. Dez 2010, 2010. Taschenbuch. Condition: Neu. Neuware - The textile processing industries produce huge quantities of colored effluents containing significant amount of unreacted dyes. These dyes are xenobiotic in nature and are thus of environmental concern. Most of the physico-chemical methods used for dye removal are cost intensive and have limited versatility. Alternatively, biological treatment methods hold promise as relatively inexpensive way to remove dyes from wastewater. This book discussed the results of the successful implementation...
