Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1883 Excerpt: .skull, occasionally involving the internal table and the diploe, and in such case sometimes disappearing spontaneously without involving the scalp, and without a trace of necrosis, but leaving distinct evidences of loss of bony substance through the influence of pressure by the material cause, the tumor. Similar tumors of bone may occur at any point throughout the bony system, producing disturbance by pressure on important structures. Tumors in the various organs of the body, occur apparently from similar causes, and in the same irregular way in point of time, involving, in order of frequency, as follows: Testes, liver, kidneys, brain, lungs, heart, etc. In some cases walls of the blood-vessels are found infiltrated with the same material of which the tumors of syphilitic origin are found to be composed, and become obstructed, as in the brain, often causing fatty degeneration of the structures to which they...
