So far as I have been able to learn, the first statute in Oklahoma on the subject of sidewalk construction was a part of section 2, p. 85, laws 1895. This was amended by S. L. 1897. p. 80, effective March 11, 1897. That part of the act relating to paving was amended by the S. L. 1907-1908, known as the 1908 paving law. Reference to paving and also the clause limiting payment of labor to one dollar and fifty cents a day were eliminated by the revision of our code in 1910, and the section became R. L. 1910, section 646; now Compiled Laws 1921, section 4625. This section provided that no notice should be necessary, but that upon petition of ten or more citizens the council might order a sidewalk constructed if they deemed such construction necessary; and that the street commissioner or the committee on improvements should supervise the work, and that no greater charge should be made against the property than the actual cost of construction and twenty-five percent added thereto. It further provided that the assessments shall be collected in the same manner as other assessments for street improvements, and that each lot or piece of ground abutting on such sidewalk shall be liable for the cost..
