

Manual of Neurological Signs

By Morris, John G. / Grattan-Smith, Padraic J.

Condition: New. Publisher/Verlag: Oxford University Press | Manual of Neurologic Signs provides a unique opportunity to expand one's clinical experience and enhance one's ability to elicit and recognize most of the common neurological signs, as well as a few rarities. | This program runs on Adobe Flash and requires a computer or device with a USB port. These are the minimum system requirements for optimal performance: Microsoft Windows 7 or higher ONLY, 256 MB RAM (512 MB recommended), Screen resolution: 1024 x 768, and USB 1.1-compliant USB port. This product is not Mac compatible. The Manual of Neurologic Signs comprises of nearly 1000 videos demonstrating a wide variety of neurological signs including features such as abnormal eye movements, reflex changes, speech impairment, and disorders of movement and gait. These are the signs that one might expect to see in patients in the wards and clinics of a major teaching hospital. They were filmed in the main by two neurologists, one adult the other pediatric, so patients of all ages are included. The videos weremade over a period of about 25 years and some cases capture the changes in signs as a disease progresses over the years. The reader is invited to...

Reviews

This pdf is fantastic. It is really basic but excitement from the fifty percent in the book. Your lifestyle span will be change as soon as you full reading this publication.

-- **Yolanda Nicolas**

A very amazing publication with perfect and lucid information. We have read through and that i am certain that i will planning to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).
