### ***Reviews***

*A brand new electronic book with a new standpoint. It is written in basic phrases rather than confusing. It has been designed in an extremely basic way which is merely right after I finished reading through this publication where it basically altered me, changing the way I believe.*

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 110 pages. Dimensions: 9.0in. x 5.9in. x 1.2in. This book, Magic Square (based on yin-yang principle), teaches the reader the methodology in solving all the magic square from the order 3 to the order N. Firstly, from the yin-yang pair of symmetry-asymmetry, we category all the magic squares into 3 categories, namely the 2N1, 4N and 4N2. The categorization becomes the backbone of how we developed the methodology in solving the magic square. Secondly, the yin-yang pairs of movable-immovable and clockwise-anticlockwise are used to solve magic square in few steps. Each category has its own methodology. The methodology derived from this is of graphical type. Thus, from this graphical type, we can use the cut-paste function, another yin-yang pair, from Excel spreadsheet to solve the magic square, especially for the higher order magic square. Lastly, the book teaches how to obtain the variation for solving the magic square. For instance, for magic square of order 9, you can obtain to more than 1 million solutions. This item ships from La Vergne, TN. Paperback.
