He had a talent for drawing and an interest in birds, and he would spend the next thirty-five years traveling to the remotest regions of his new country often alone and on foot to render his avian subjects on paper. The works of art he created gave the world its idea of America. They gave America its idea of itself. Here Richard Rhodes vividly depicts Audubon's life and career: his epic wanderings; his quest to portray birds in a lifelike way; his long, anguished separations from his adored wife; his ambivalent witness to the vanishing of the wilderness. **John James Audubon: The Making of an American** is a magnificent achievement.
