Rodale Books. Paperback. Book Condition: New. Paperback. 320 pages. Dimensions: 9.0in. x 6.0in. x 1.0in. Now Available in Paperback! In this book two highly credentialed child psychologists offer a compelling indictment of the growing trend toward accelerated learning. It's a message that stressed-out parents are craving to hear: Letting tots learn through play is not only okay—it's better than drilling academics! Drawing on overwhelming scientific evidence from their own studies and the collective research results of child development experts, and addressing the key areas of development—math, reading, verbal communication, science, self-awareness, and social skills—the authors explain the process of learning from a child's point of view. They then offer parents 40 age-appropriate games for creative play. These simple, fun—yet powerful exercises work as well or better than expensive high-tech gadgets to teach a child what his ever-active, playful mind is craving to learn.
